Frequently Asked Questions regarding Ballot Marking Devices (BMDs) for Fall 2008 and 2009

7. How can I be sure that the BMD has accurately captured my selections?

At the end of the process, the BMD will print your marked ballot and may provide an audio replay for your review if the audio headphones are being used. After you mark your ballot using the BMD, you will have an opportunity to review your selections. You may choose to void the ballot and start the process over. Voters have three (3) opportunities to mark their ballot as they wish.
